Description:

From the Publisher This second edition is a significantly expanded and revised version of the book that has been the basic instructional text for draping in numerous fashion design programs since its original publication. The book covers all of the fundamental material for the first year of study in an intensive fashion design program, plus the new edition has been expanded to include many of the more complex draping techniques covered in more advanced courses. --This text refers to the edition.

From the Back Cover This workbook provides basic material on design and patternmaking, with an emphasis on instructions for draping. It acknowledges dramatic industry changes with the integration of computers into virtually every step of the apparel manufacturing process, and introduces readers to the functions and skills needed to utilize this highly versatile and efficient tool. Narrative sections and illustrations cover the topics of basic patterns, bodices, skirts, pants, collars, sleeves, and pockets. Additional chapters on sportswear, functional finishes, and draping, supply even more explanation on simplified methods currently employed in the industry. For anyone preparing for a career, or interested in learning the latest techniques, in the fashion industry.
